

# 91 OCTANE

I understand that by having 91 Octane modify my vehicle from the stock specifications that I have changed key components and may have diluted some of the stock safety features installed by the factory. I also understand that these modifications could possibly fail if the vehicle is not maintained properly or if it is operated improperly. I also understand that anything that may happen as a result of these modifications is my responsibility. By signing this, I agree to not hold 91 Octane, its employees, or anyone affiliated with 91 Octane liable for any property damage or any personal injuries due to these modifications. Thank you for your business.
